

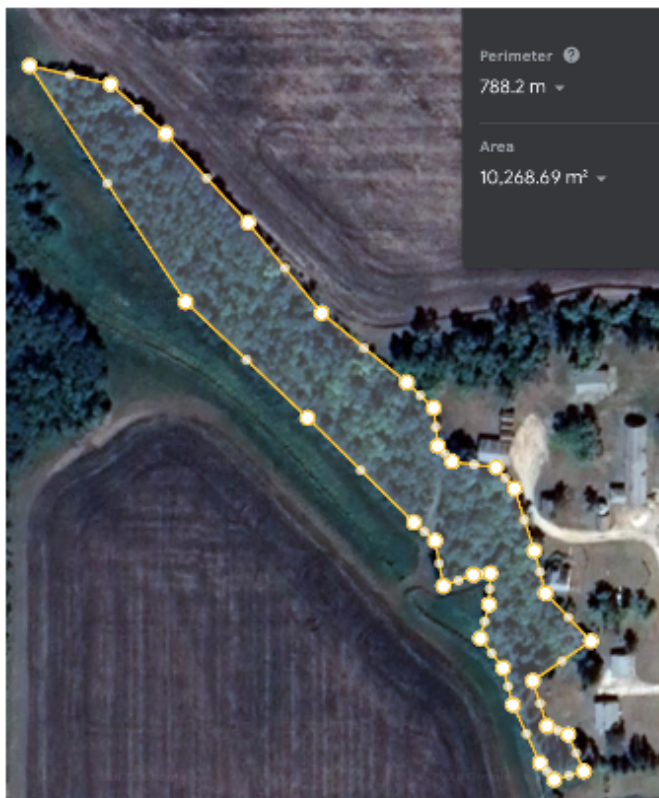

**Figure 1.** Entire Area of Acreage. (Google Earth, 2021)

**Figure 2.** Dense Forested Area of Acreage. (Google Earth, 2021).

**Figure 3.** Looking southward along the West periphery of forested area.

**Figure 4.** Small hole in White Spruce with the size of tunnel system measured with reference stick.

**Figure 5.** White Spruce bark ripped off with signs of pecking or digging into stem tissue. This specimen was adjacent (<1m apart) to the tree with the tree from Figure 4.

**Figure 6.** Fungal and moss growth at the base of tree from Figure 5. This tree appears to be supporting several types of wildlife.
